Habitat for Humanity International “Homes without Borders”

The ***Homes without Borders*** partnership with Habitat for Humanity International (HFHI) will allow The Links, Incorporated to strategically respond to the long-term housing needs of people living without decent and affordable housing shelter in the United States, Africa and the Caribbean. Following the Haiti earthquake disaster in January 2010, The Links, Incorporated was able to make a substantial impact on survivors by mobilizing members to support HFHI’s mission of providing stable housing options in Haiti’s devastated regions. This partnership with HFHI will also facilitate future collaborations between the organization’s chapters and HFHI affiliates.
